Role of Resource Caregiver	 Help from trained professionals during a mental health crisis A resource caregiver provides temporary care for children in foster care. It is therefore essential to work with DHS to support reunification or to transition the child to appropriate relatives for permanency. Dependent upon the situation, it may involve at least an initial meeting with the birth parent(s). Some resource caregivers

	may even feel comfortable to mentor the birth parents. It may involve transporting			
	or supervising and supporting interactions between the birth parents and child or			
	between siblings. Also, it will involve facilitating and participating in services to			
	support the child's well-being (cultural, ethnic, mental and physical health, education			
	spiritual, etc.).			
	The role of the resource caregiver is to provide normalcy for children in foster care.			
	"Normalcy" as defined by young people in foster care, means being a part of a caring			
	and supportive family, developing and cultivating friendships, engaging in			
	extracurricular and everyday activities, being a person, not a label and making			
	decisions, trying new things and sometimes making mistakes. Allowing for mistakes			
	to be teachable moments and not used as a reason to ask the child/young person to			
	leave.			
Foster Board	Resource Caregivers receive monthly Foster Board Reimbursement:			
Reimbursement	 0-5 years of age \$649 a month per child. 			
	 6-11 years of age \$742 a month per child. 			
	 12 years and older \$776 a month per child. 			
Child Care or Preschool	Childcare/preschool financial subsidies for children may be available from various			
Financial Assistance	programs, including Childcare Connections, Preschool Open Doors, and Keiki O Ka			
	Aina (KOKA) Family Learning Centers (for Native Hawaiian and American Indian			
	children.			
	Call the Warm Line at 545-1130 (Oahu) or 1-866-545-0882 (toll free) for information			
	and referrals.			
Child Information	Every child in foster care has a CIF. The folder contains all health/medical,			
Folder (CIF)	psychological, social, and educational documents that are available to DHS at the time			
	of the child's placement. The CIF is to be provided to the resource family within 30			
	days of a child's placement. It is also used to file additional information and case plans provided to the resource family during the placement. If the child moves from			
	the resource home, the complete CIF must be returned to the Social Worker.			
Clothing Allowance	A purchase order or reimbursements for clothing (including school T-shirts and			
	uniforms), shoes, and diapers are available per child per year up to:			
	 \$810 for children aged 0-5 			
	 \$822 for children aged 6-11 			
	 \$1,026 for children aged 12 and older
