

PREVENT TIP-OVER DEATHS

SECURE YOUR FURNITURE AND TVs

Quick Stats

On average, 2 kids die each month from a tip-over incident.

Every 47 minutes a child is sent to the emergency department following a tip-over incident.

Incident Locations

About 9 out of 10 furniture tip-over deaths occur in the home.

Almost half of all tip-over deaths occur in a bedroom.

Safety Tips

Remove items, such as toys and remote controls, from the top of dressers, TVs and other large furniture.

Secure your furniture and TVs using safety straps and brackets.

Report any incidents with tipping furniture at SaferProducts.gov.
